PULL~OUT  
COLLECTION

Authentic Luxury for Kitchen and Bath®

ROHL®

# ROHL<sup>®</sup> PULL~OUT COLLECTION

ROHL introduced the pull-out kitchen faucet design in the United States over 25 years ago, and we have been improving and expanding our product line ever since. Our exclusive ROHL Pull-Out Series of faucets combines functionally distinctive pull-out faucet technology with elegant design and superb craftsmanship. For safety, our Country, dé Lux and Modern Lux style Pull-Out faucets feature anti-scalding technology that prevents the hot water side from being fully opened, avoiding serious burns. For quality, these faucets also feature stainless steel hoses, brass construction and ceramic disc valve technology. For design consistency, every Pull-Out faucet is available as a matching bar faucet, except the A3410-2.
